

QUARTERLY PLANNER (April to June) 2019-2020

"The real difficulty is that people have no idea of what education truly is. We assess the value of education in the same manner as we assess the value of land or of shares in the stock exchange market. We want to provide only such education as would enable the student to earn more. We hardly give any thought to the improvement of the character of educated".

"By education I mean an all-around drawing out of the best in the child and man-body, mind and spirit."

-Mohan Das Karamchand Gandhi

Creativity and imagination of the human mind would always be superior to any computer...

-APJ Abdul Kalam

What is Education? Is it book learning? No
Is it diverse knowledge? Not even that.

The training by which the current and expression of will are brought under control and become fruitful is called education.

-Swami Vivekananda
